SUMMARY

Experienced Software Engineer with over 2.5 years of expertise in Node.js, React.js, Redux, TypeScript, MongoDB, Nest.js framework, Flutter and C/C++. Proven commitment to writing clean and efficient code that is easily maintainable, with a focus on delivering high-quality software solutions. Always eager to learn and apply new technologies to solve real-world problems. Thrives in collaborative environments and is ready to bring my technical skills and passion for continuous learning to contribute to impactful software projects.

EXPERIENCE

Software Engineer

Riktam Technologies   **October 2021 – Present, Hyderabad**

· Actively participated in collaborative efforts within the development team, contributing to discussions on architecture, design, and problem-solving.

· Managed a core microservice at Setel startup in Malaysia, utilizing Nest.js, Docker, Rabbit MQ, and Bull to develop and maintain the microservice, ensuring seamless communication and scalability.

· Implemented best practices and coding standards to ensure the long-term sustainability of the codebase.

· Played a key role in building a product from scratch, contributing expertise to both front-end and back-end development in a full-stack capacity.

· Actively participated in peer-to-peer code reviews, providing constructive feedback and ensuring code quality and adherence to best practices.

· Developed and implemented a systematic process for extracting weekly reports from the database, contributing to the enhancement of data analytics skills.

· Demonstrated a proven ability to thrive in high-pressure work environments, maintaining composure and effective decision-making without succumbing to panic.

· Successfully integrated GraphQL APIs into the React application, enhancing data retrieval and improving overall system efficiency.

Intern

Riktam Technologies   **April 2021 – October 2021, Remote**

· Experimented with multiple products across various teams, training by actively working on diverse projects and collaborating with colleagues.

· Underwent comprehensive training in diverse web and mobile app development technologies, strategically applying acquired knowledge to projects for practical skill enhancement.

Flutter Developer – Internship

RedPositive Service OPC Pvt. Ltd   **May 2020 – July 2021, Remote**

· Collaborated within a 2-member team to develop customer and vendor apps for an online Tiffin Service, addressing both major mobile platforms.

· Incorporated a map feature to empower customers in locating nearby Tiffin providers, enhancing the user interface and ordering process.

· Actively participated in peer-to-peer code reviews and testing procedures, ensuring adherence to best practices and the delivery of reliable solutions.

PROJECTS

Medium Scrapper

January 2021 - February 2021

· Engineered a web application utilizing Node.js for backend development, integrating the Cheerio package for efficient web scraping of blog data from the Medium website.

· Implemented a dynamic and responsive frontend using React, providing an intuitive user interface to display the crawled blog data.

EDUCATION

Bachelor of Technology – CSE

ABESIT · Ghaziabad · 2021

Intermediate

Priyanka Modern School · Dhampur · 2017

CERTIFICATIONS

Amazon Web Services Cloud Practitioner

Udemy · 2020

SKILLS

C/C++, Typescript, React JS, CSS-FlexBox, Flutter, Node JS, Nest JS, MongoDB, Redis, Bull queue, Rabbit MQ, Docker, Kubectl, Kubernetes.
